Type of financial (accounting) statements of the joint-stock company, in which material mistakes have been identified (consolidated statements or statements of legal entity): consolidated financial statements prepared in accordance with the International Financial Reporting Standards (IFRS).

Description of mistakes identified in the joint-stock company's financial (accounting) statements:

In 2007, OAO Mosenergo engaged a qualified actuary for the assessment of its post-retirement payment obligations. As a result of the actuarial assessment and the application of IAS 19, Mosenergo believes that material post-retirement payment obligations of RUR 1,163 million and RUR 1,203 million should have been recognized in the consolidated financial statements for the years ended December 31, 2006 and December 31, 2005, respectively. Accordingly, OAO Mosenergo has recalculated certain comparative financial information included in the consolidated interim condensed financial statements for the nine months ended September 30, 2007.

The effect of the recognition of these obligations is the increase of the accumulated loss at December 31, 2006 by RUR 884 million and at December 31, 2005 by RUR 914 million with the increase in post-retirement payment obligations at December 31, 2006 by RUR 1,163 million and at December 31, 2005 by RUR 1,203 million. Deferred tax liabilities have been accordingly adjusted by RUR 279 million and RUR 289 million at December 31, 2006 and December 31, 2005, respectively.
